Quick Start Guide for QuickApps qListForm Updated March 2021

## Introduction

This document is helpful for SharePoint Administrators, Tenant Administrators and **QuickApps qListForm** users as it enables them to quickly start working with the app.

QuickApps qListForm is a SharePoint add-in. This add-in allows you to:

- Replace the Microsoft List Form web parts.
- Group multiple form fields into tabs to maximize valuable screen space and eliminate the need for scrolling north and south on a page.
- Use point-and-click configuration instead of using custom code to customize SharePoint solutions up to 80 percent faster.
- Meet your most complex business requirements, from interface enhancements to complete solutions, without need for custom development training or experience.

## System Requirements

To install QuickApps qListForm, you must meet the following minimum system requirements:

**Table 1. Minimum System Requirements**

Feature	Requirement
Rights and permissions	SharePoint Tenant Administrator rights on the SharePoint Site for installation. Site Admin Rights for configuration of app. Read Rights for viewing data and basic operation.
SharePoint Version	SharePoint Online
Browser	Edge, Latest version of Chrome, Firefox, and Safari, Internet Explorer 11
